

The Spring Term at school flew by as usual, with every week seeming to have something special happening.

Highlights of the term included, of course, not one but two lots of snow. While we had to close the school for part of the first bout, we were fully open for the second, with the children having great fun tracking rabbit, fox and pheasant prints in the snow, building impressive snowmen and improving their throwing skills. I can vouch for the accurate aim and significant strength of quite a number of the older children!

The school paid tribute to the work of the Commonwealth by joining in with the Fly a Flag for the Commonwealth celebrations. We were pleased to welcome the Mayor of Gillingham to read out the Commonwealth Affirmation and then join in with organisations around the world in raising the flag on our Parish Council-donated Flag Pole. A very special day, during which the children learnt a lot about the values shared by countries across the globe.

Our Curriculum Showcase was very well-attended by parents and family friends, with the children demonstrating their learning from the term. Parents have also come into school to see the Class Assemblies
