

News from Stower Provost Primary School

The New Year has got off to a flying start at Stower Provost School – literally! Oaks Class, the oldest children, spent part of the first week of term learning about Forces, and built their own parachutes with an amazing range of styles and effectiveness. Over the next few weeks the children will be looking at a range of forces and the way they act on objects around them.

In our Chestnuts Class, Year 3 and 4, are studying The Indus Valley, a fascinating part of the world which gives the children an insight into how other people live. Acorns, Year 1 and 2, are showing themselves to be budding meteorologists and are making the most of the wide variety of weather this year has already brought us. Meanwhile, Conkers, our Reception Class, have been learning all about Dinosaurs, regularly bringing me drawings of their latest discoveries and proudly telling me what the Diplodocus and Pterodactyl liked to eat.

We have an exciting term ahead, with plenty of sport, music and art to keep the children engaged, while plans for a new summer residential trip to Bristol are forging ahead.

The PTFA, as always, has a packed agenda of fun activities and fund-raising events, including the Spring Ball at the end of this term and projects to develop the school environment.

We are always keen to build links with the local community through joint projects and welcoming members of the community into school. If you would like to be involved in the life of the school, or have ideas as to how we could develop our links, please contact the school office and I would be delighted to speak with you.

With best wishes

James Stanford
